Professional Summary

Highly motivated and detail-oriented 3rd-year Data Science student, I am passionate about leveraging data to solve complex problems and drive informed decision-making. With a strong foundation in programming, statistics, machine learning, and data visualization, I am skilled in extracting actionable insights from large datasets

Internship

Cipher Schools

June 2024 – Aug 2024

- Focused on mastering Data Structures and Algorithms (DSA) using Java.
- Implemented core data structures: arrays, linked lists, stacks, queues, trees, and graphs.
- Developed advanced algorithms: sorting, searching, dynamic programming, and recursion.
- Solved 50+ coding problems on Cipher Schools platform
- Improved problem-solving skills and understanding of time and space complexity.
- Enhanced teamwork, communication, and debugging skills.

Projects

- **Online Food Delivery System:** Feb 2022
 - Personal initiative to enhance web development skills.
 - Goal: Create a responsive food-related website for recipes, blogs, and healthy eating tips.
 - Designed layout with HTML and CSS for a clean, intuitive interface.
 - Improved proficiency in HTML, CSS, and JavaScript.
- **Student Management System:** Sep 2023
 - Undertook a project to design and implement a Student Management System to strengthen my understanding DSA
 - Aimed to create an efficient system for managing student records, including operations like insertion, deletion
 - Applied core DSA concepts to optimize the system for time and space complexity.
 - Utilized C++ to implement the system, leveraging data structures like arrays, linked lists, and trees.
 - Designed and implemented algorithms for insertion, deletion, searching, and sorting of student records.

Certificates

Mastering Data Structures & Algorithms using C and C++: Udemy Feb 2024
Data Analysis with Tableau : Coursera Feb 2024

Targets

AI-Powered Smart Fridge with Expiry and Food Waste Management :

- Developed an AI-powered smart fridge system using Python to manage food inventory, track expiry dates, and optimize food waste management .

Health Monitor - A: Containerized Health Data Analysis System:

- Developed “Health Monitor - A”, a containerized health data analysis system leveraging Docker and Tableau for scalable, interactive visualization of patient health metrics using real-world datasets from Kaggle.

Technical Skills

Languages C++, Java, C , Excel , Python

Technologies/Frameworks: Git, GitHub, Ubuntu , Html , CSS

Skills: Data Structures and Algorithms, Tableau , Problem Solving , Critical Thinking , Teamwork

Education

Lovely Professional University 2022 – 2026
Computer Science and Engineering — CGPA: 6.60 Jalandhar , Punjab

Narayana Junior College 2019 – 2021
12th with Math — Percentage: 96% Hyderabad , Telangana

Pathfinder High School 2018 – 2019
10th — CGPA: 9.7 Warangal , Telangana
