PROFFESIONAL SUMMARY

Contact:

gudasagar81@gmail.com

91-8179984603

Highly motivated and detail-oriented 3rd-year Data Science student, I am passionate about leveraging data to solve complex problems and drive informed decision-making. With a strong foundation in programming, statistics, machine learning, and data visualization, I am skilled in extracting actionable insights from large datasets

SKILLS

- **Languages:** C++, Java, C, R, Python, Tableau
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL
- **Soft Skills:** Problem Solving, Critical Thinking, Teamwork, Communication, Time management

SUMMER INTERNSHIP

Cipher Schools

June 2024

- Focused on mastering Data Structures and Algorithms (DSA) using Java.
- Implemented core data structures: arrays, linked lists, stacks, queues, trees, and graphs.
- Developed advanced algorithms: sorting, searching, dynamic programming, and recursion.
- Solved 50+ coding problems on Cipher Schools platform
- Improved problem-solving skills and understanding of time and space complexity.
- Collaborated on group projects, including a Java-based application for visualizing sorting algorithms.
- Enhanced teamwork, communication, and debugging skills.
- Strengthened foundational knowledge of DSA and Java for software development roles.

PROJECTS

• Online Food Delivery System:

February 2022

- Personal initiative to enhance web development skills.
- Goal: Create a responsive food-related website for recipes, blogs, and healthy eating tips.
- Designed layout with HTML and CSS for a clean, intuitive interface.
- Added interactivity (e.g., dynamic content, sliders, form validation) using JavaScript.
- Delivered a fully functional, responsive website.
- Improved proficiency in HTML, CSS, and JavaScript.
- Demonstrated ability to create user-centric web applications.

• Student Management System:

September 2023

- Undertook a project to design and implement a Student Management System to strengthen my understanding of Data Structures and Algorithms (DSA).
- Aimed to create an efficient system for managing student records, including operations like insertion, deletion, searching, and sorting
- Applied core DSA concepts to optimize the system for time and space complexity.
- Utilized C++ to implement the system, leveraging data structures like arrays, linked lists, and trees.

CERTIFICATES

- Mastering Data Structures & Algorithms using C and C++ Feb 2024
- Data Analysis with Tableau Oct 2024
- IBM Devops and Software Engineering Nov 2024

ACHIEVEMENTS

- **Secured District 2nd rank in B-Toppers Math Olympiad**
Among 5k+ participants

- **Worked in NGO as Intern and got certified**

June 2024

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.60 Since August 2022
- **Narayana Junior College** Hyderabad, Telangana
Intermediate; Percentage: 96% April 2019 - March 2021
- **Pathfinder High School** Warangal, Telangana
Matriculation; Percentage: 97% April 2012 - March 2019
